CONDITION OF THE MARKETS

Wheat Declines Over Two Cents at Chicago on Speculative Influences.

Simply an Unexplained Rush of Operators to Sell-Corn Easier-Oats Dull but Unsettled-Little Doing in Pork.

MONEY, STOCKS AND BONDS.

Great Day for Shearing Lambs in Wall Street-"Shaking Out" Weak Holders." NEW YORK, May 29.-Money on call was close, ranging from 5 to 10 per cent., the last loan being made at 6 per cent., closing

offered at 5 per cent. Prime mercantile paper 5@7 per cent. Sterling exchange more active and firm at \$4.8412 for sixty-day bills and \$4.8612 for demand.

The total sales of stocks to-day were 590,-654 shares, including the following: Atchison, 46,220; Canada Southern, 4,900; Delaware, Lackawanna & Western, 19,160; Lake Shore, 10,110; Louisville & Nashville, 3,888; Michigan Central, 3,205; Missouri Pacific, 26,545; Northwestern, 5,000; New York Central, 3,400; Northern Pacific, 8,780; Oregon Transcontinental, 51,539; Reading, 31,700; Richmond & West Point. 18,585; St. Paul, 52,506; Texas Pacific, 7,595; Union Pacific, 9,610; Western Union, 3,308.

The stock market to-day was active and feverish, with a strong tone in the fore-noon, which gave way to decided weakness in the afternoon, though a smart raily toward the close brought most of the list up to within small fractions of last evening's final figures. The trusts were again the demoralizing influence in the market, the "bears" using the declines in those stocks to hammer the regular list. and in some instances with marked success. Oregon Transcontinental, the Northern Pacifics, Missouri Pacific, Rock Island, Delaware & Lackawanna and New England all yielded easily to rapid selling. Missouri Pacific was one of the weakest stocks, and there was evidence of a disposition on the part of the insiders to let the price off, a fact which led to the impression that its controllers were not opposed to a feeline. Atchison, the Vanderbilts, Wheeling & Lake Erie and St. Paul were the strongest stocks of the day, the declines in them being small in comparison to those in most of the list. The effect of the restoration in rates was felt in the list this morning and the Londoners were on hand with large buying orders in their specialties, which opened the list from 1s to 7s per cent. higher than last evening's figures, but the buyoney in their list was met by renewed demoralization in the trusts and Chicago Gas in particular. The last-named stock made a quick drop of 534 per cent. to 4934, but the news that the appointment of the receiver had been put off for a week, and that the trust would fight the appointment in the higher courts caused a rally which, however, was not fully maintained. To this influence was added further the liquidation in Sugar Refineries, and while that stock was stronger at the opening than Chicago Gas it failed to rally, and reached materially lower figures than before. The buying in the general list was checked, and the "bears" turned their attention to the regular list, meeting with some aid, it is believed, from the bull leaders, who were desirous of shaking out some of a too-numerous following. The pressure was most severe upon the Villard stocks, and Oregon Transcontinental led the drop with a decline from 4912 to 45, with the

most influential was that the Villards had demanded a different trial. Money also became dearer, and rates on call were run up to 10 per cent., which helped the liquida-tion. The general belief that stocks were passing into the hands of strong men, however, soon induced a sharp rally, and every-thing made material progress towards higher figures in the remainder of the afternoon, while the business done was large throughout. The close was active and strong at the recovery. The list is generally fractionally lower this evening, but Chicago Gas is down 338, Sugar 3, Cotton Oil receipts and Transcontinental 134 each, New England 134, Northern Pacific prefer 21 134 and Lackawanna 134.

Railroad bonds were comparatively quiet and did not partake of the activity or excitement which marked the dealings in stocks, while a steady to firm tone prevailed, with few important movements.

Northern Pacific following. Missouri Pacific, New England, Rock Island, Laka-

wanna, St. Paul, Reading and Richmond & West Point all made marked declines, and

weak holders were shaken out all over the

list, the existence of numerous stop-orders

aiding the decline when it was once started.

A number of unsettling rumors were set affoat to aid in the decline, and one of the

The sales reached only \$1,351,000, out of which Texas Pacific seconds, Atchison incomes and Reading first income furnished a large proportion. Outside of the prominence of these issues the dealings presented no feature of interest, and while Cleveland & Canton firsts, Scioto Valley firsts and Western New York & Pennsylvania firsts showed material gains at the close, Lake Shore second coupons, Milwaukee & North-ern sixes of 1913, Richmond & West Point Trust fives, Alton & Terre Haute dividends and LaClede Gas fives were materially

TRADING AT CHICAGO.

Heavy Decline in Wheat-Corn Dull and Easier-Oats and Pork Unsettled.

CHICAGO, May 29.- The volume of trading in wheat to-day was rather large. There were less than the usual number of outside buying orders and quite a good many selling orders. Local operators also sold freely, and there was general liquidation. Some of the parties credited with being the strongest "bulls" a few days ago were reported as having sold out. The opening was 4@ 2c lower than yesterday's closing, and, under free offerings, sold off 4c more and then rallied 300 12c, but the offerings became heavy, and it was surmised that some one was feeling the market with all the wheat it would take without making the selling appear too conspicuous, and prices slid off 's@1c and then rather rapidly 134@2c more, ruled irregular and closed about 212c lower for July, 2c lower for August and 134c lower for September than the closing tigures on 'Change yesterday. There was nothing specially important in the way of crop news received from outside points, or in fact news of any kind. Corn was rather dull and easier, lower prices being the rule on all futures. Operations were in the main local, with opening sales 180 14c under the closing yesterday, was steady for a time, then sold off 38@12c, ruled quiet and closed 38@12c lower than yesterday. There was no active trad-ing in oats, but there was a decidedly unsettled feeling. The opening was steady, and the futures beyond this month firmer. and the futures beyond this month firmer.

May, however, was weak, prices receding 114c and closing 12c above inside figures.

Trading was mainly in June and July, and they held up well despite the depression in May. The remote deliveries were also fairly supplied and the closing sales were at about the same figures as yesterday. Only a fair trade was reported in pork. Early sales were made at 10@12120 advance, but a weaker feeling was de-

veloped later, and the greater portion of the advance was lost. A fair trade was reported in lard, but the feeling was somewhat unsettled. At the opening prices were advanced .02\(^12\alpha\).05. Prices settled back again, and the market closed tame. Trading in short ribs was moderate. The market opened rather strong, and prices ruled .02\(^12\alpha\).05c higher. Later the feeling was easier, and prices declined about .02\(^12\)c, and closed steady. The leading futures and closed steady. The leading futures ranged as follows:

INDIANAPOLIS MARKETS.

Trade Good, with Prices on Most Articles Firm.

INDIANAPOLIS, May 29. In most departments trade to-day was quite active. Sugars are taking on a firmer tone, and the movement is quite free. The New York Bulletin of Wednesday says of sugars: "Refined have not been active enough to cause any special remark, but there was a fair general movement on regular calls, with a tendency to increase, if anything, and the market ruled firm at full former rates in pretty much all cases." In speaking of coffees the same authority says: "For Rio and Santos grades the local market, of course, furnishes a large amount of the usual bull talk in protection of the supplies, for which owners are seeking an outlet. The most common text is embodied in the claim of scant country accumulations and the idea that dependent custom must very soon abandon all contest and simply come forward in abject submission to the views of holders, taking supplies freely and at advancing cost, and to which has been added of late the small run of receipts reported at primary points. This latter feature we find now more generally talked of, and many operators who were at first inclined to attribute the small movement to the temporary influence of rains, commence to accept the theory that exhaustion of the old crops is indicated." The produce markets were active. Sweet potatoes are off the market. Irish potatoes (old) are in light supply and higher. New potatoes in fair supply and steady in price. Poultry and eggs both go off to-day on larger receipts and a decreasing demand. GRAIN.

The local market has taken on a decidedly tame tone, and if anybody wants cereals it was not shown in the bidding on 'Change. Track bids to-day ruled as follows:
